

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	31 January 2025
Team ID	
Project Name	College Library Book Request System
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the College Library Book Request System.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Book Request Submission	Student fills a custom book request form Auto-generate a unique request number Notify the librarian when the request is submitted
FR-2	Issue Date Validation	Validate that the issue date is not in the past Allow only current or future dates for book issue
FR-3	Book Availability Check	Display real-time availability of requested book Show number of copies available
FR-4	Librarian Notification	Send notification to librarian upon new request Librarian can approve or reject the request

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The book request form must be intuitive and easy for students to fill out without training
NFR-2	Security	Student login must be authenticated; only authorized users can submit or view book requests
NFR-3	Reliability	The system must reliably auto-generate unique request numbers and send notifications without failure
NFR-4	Performance	The system should respond to book request submissions within 2 seconds under normal load

NFR-5	Availability	The library system must be available 99.5% of the time during college working hours
NFR-6	Scalability	The system must scale to handle simultaneous requests from all students during peak hours
